DETAILED ACTION

1. Upon further consideration, the previous restriction requirement has been withdrawn. Presented herein is a new requirement for restriction for applicant's consideration.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 13-17, 28-31, and 37-40, drawn to a peritoneal function test and related apparatuses.

Group II, claim(s) 6-9, 18-22, 32-34, and 41-43, drawn to a peritoneal function test and related apparatuses.

Group III, claim(s) 10-12, 23-27, 35-36, and 44-45, drawn to a peritoneal function test and related apparatuses.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: while groups I-III share the same special technical feature of utilizing mass transfer area coefficients and the peritoneal membrane permeability to perform a peritoneal function test, however, this does not provide contribution over the prior art. Chen et al. (USP 5,670,057) discloses an apparatus and method for performing peritoneal equilibration tests by identifying the membrane permeability (**C2/L4-13**) and determining the mass transfer area coefficient (**C2/L33-52**).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
